Summary of reasons for decision:

The computer moving image file is deemed objectionable because it promotes and supports the exploitation of young persons for sexual purposes.

The publication is a brief video clip created with a digital camera. It shows a girl in her mid-teenage years kneeling and masturbating with her buttocks to the camera. The purpose of the video clip is sexual titillation and arousal and it is clearly likely to appeal to people with a sexual

interest in young persons. The availability of such material creates or reinforces a sexual interest in vulnerable young people and encourages their sexual exploitation.

The classification of this publication interferes with the right to freedom of expression set out in the New Zealand Bill of Rights Act 1990. However, this is an outcome that is consistent with Parliament's intention and is a reasonable limitation on the freedom of expression. The classification reflects the concern of a free and democratic society to protect young and vulnerable people from sexual exploitation.
